PROFESSIONAL EXPERIENCE

COFFEECUP SOFTWARE, Corpus Christi, Texas • 1996-2007

A multi-million dollar provider of downloadable web design software and services.
<http://www.coffeecup.com>

Founder and CEO

Built revolutionary software company from the ground up by pioneering development of CoffeeCup HTML Editor, an application enabling nontechnical consumers to develop personal websites. Spearheaded comprehensive daily operations and maintained P&L accountability. Drove design and development for 20+ software programs and services, including web hosting, search engine submission, and custom software for Mattel, GE, and other clients. Grew business by forging strategic partnerships with major distribution sites including CNET and Ziff-Davis and spearheading marketing initiatives. Managed website activities, e-commerce system, and email newsletter distribution to 2M users monthly. Continuously updated product line to maintain competitive advantage, enhance features, and harness emerging technologies. Supervised 10-40 employees.

Major Accomplishments:

- Grew company from idea into a provider of 55M+ downloads of 20+ software applications.
- Provided 1M+ students with free web design software by developing CoffeeCup Educational Software Package.
- Harnessed and leveraged 10K+ users to drive 1st-of-its-kind CoffeeCup Ambassador program, designed to empower users in evangelizing company.
- Launched separate Web Hosting Company (Bluedomino.com) for 15,000 Users.

Software and Website Highlights:

- Earned recognition as 1 of top 5K websites visited on the internet in 2007.
- Garnered outstanding success in emerging online industry, securing status as 1 of 1st 100 downloadable software programs.
- Achieved standing as #1 downloaded web design software from download.com and tucows.com for 10 consecutive years.
- Secured position as #400 in *Interactive Week Magazine's* "Interactive 500" in 2000.

continued...

CoffeeCup, Software and Website Highlights, continued...

- Won multiple Shareware Industry awards including Best Web Enhancement/Utility in 1999 and 2000, Best Internet Communication Software in 2001, Best Web Enhancement Software in 2002, and Best Internet Enhancement Software in 2002-2004.
- Increased company visibility by securing 1000s of articles and reviews worldwide.

RAVEN & SPARROW, Corpus Christi, Texas • 1994-1996

An internet café that laid the foundation for CoffeeCup Software.

Owner/Operator

Built one of the world's first 25 internet cafes by selecting location, developing marketing, and forging partnership with local ISP to provide free internet service for the public.

Major Accomplishments:

- Earned recognition as 1st commercial website in Corpus Christi and only free internet access provider city-wide.
- Grew business by developing websites for customers, ultimately launching CoffeeCup software.
- Spearheaded development of CoffeeCup HTML Editor by partnering with computer programmer to create application, installing program on Raven & Sparrow computers, and posting it at CoffeeCup.com as free download.
